Sri Yokesh Shanmugamurthy
Senior UX Designer

Summary

Senior UX Designer with a strong Computer Science foundation, driving innovative SaaS solutions in data integrity, cataloging, and governance. Expert at interaction design and collaborating across teams to transform complex challenges into seamless, user-friendly experiences. Committed to leveraging data-driven insights to deliver impactful, elegant design solutions that empower users and accelerate business goals.

Experience

Senior UX Designer | 03/2021 – Present
Precisely, Ireland

Designing user-centric experiences for Data Catalog and Data Governance products within a SaaS-based Data Integrity Suite. Collaborating with product, engineering, and design teams to translate complex workflows into intuitive interfaces.

Driving UX strategy through user research, wireframing, prototyping, and usability testing. Ensuring consistency and scalability by contributing to Precisely's design system.

User Interface Designer | 12/2016 – 07/2018
Stradegi Solutions, India

Designed user interfaces for fintech solutions, focusing on clarity, usability, and seamless user experiences. Collaborated closely with product managers and developers to deliver polished, responsive applications tailored for financial users. Enhanced user engagement and satisfaction through iterative design improvements based on user feedback.

Education

User Experience Nanodegree | 02/2020 – 04/2020
Udacity
